

# \$10 a Tom Cat

Unaltered male cats are always ready, willing, and able.

A male cat does not have a heat cycle. While a female cat can have up to three litters a year, an active male cat can be responsible for hundreds of offspring per year.

For just \$10 you can prevent the birth of thousands of kittens and keep your male cat healthier! Reduce spraying, cat fights, injuries, and most of all...save lives!

**ONLY in July - while supplies last!**

**Beginning July 1st certificates can be purchased at:**  
Pet Country, Medford, White City and Ashland Grange CO-OPs,  
Grants Pass Mini Pet Mart (on 6th) and Medford Mini Pet Mart (on Stewart).

**SNYP** 

**For details visit [spayneuter.org](http://spayneuter.org) or call 858-3325**

Help save lives by posting this flyer at your workplace, gym, church, school, etc. The more people who know about this great offer, the more lives we can save through prevention.
